

Aditya Dimri

Backend .NET Engineer | C# • ASP.NET Core & MVC • SQL Server • REST APIs & Web API • Microservices

+91-6280142908 | aditya21766@gmail.com | Mohali, Punjab, India | [linkedin.com/in/aditya-dimri-33734427b](https://www.linkedin.com/in/aditya-dimri-33734427b) | github.com/adityapandit343

PROFESSIONAL SUMMARY

Backend Software Engineer with 2+ years of experience building scalable systems using C#, .NET Core, ASP.NET Core, and ASP.NET MVC, with strong OOP (Object-Oriented Programming) and Design Patterns fundamentals. Skilled in REST APIs, Web API, Entity Framework, LINQ, SQL Server, and Stored Procedures, working across the full SDLC in Agile teams to design, develop, test, debug, and maintain microservices. Proficient in JavaScript, jQuery, HTML, CSS, and Git, with strong Problem-Solving, Analytical, and Communication Skills and proven Team Collaboration. Contributed to a production SaaS platform serving 1,500+ customers.

TECHNICAL SKILLS

Languages	C#, JavaScript, HTML, CSS, SQL
Frameworks	.NET Core (6/8), ASP.NET Core, ASP.NET MVC, ASP.NET Web API, Entity Framework Core, LINQ, jQuery, Bootstrap, React.js
Architecture	Microservices, REST APIs, OOP, Design Patterns, Clean Architecture, SOLID Principles, Event-Driven Systems, RabbitMQ
Data & Caching	SQL Server, PostgreSQL, Stored Procedures, Redis, Query & Index Optimization
Tools & Practices	Git, Postman, Docker, CI/CD, Agile, SDLC, Unit Testing, Debugging, Troubleshooting
Cloud & Security	Microsoft Azure, Azure AD, IIS, Hangfire, OAuth 2.0, JWT Authentication, Role-Based Access Control
Professional	Problem-Solving Skills, Analytical Skills, Communication Skills, Team Collaboration

WORK EXPERIENCE

.NET Developer — Lord Mahavira Services Pvt. Ltd.

Oct 2024 – Apr 2026

Greater Noida, India

- Develop and optimize backend services in C# and .NET Core with Redis caching, processing 5M+ records/day and improving throughput by 30%.
- Design and test 15+ REST APIs and Web API endpoints using RabbitMQ and microservices, secured with OAuth 2.0/JWT, following SOLID and Design Patterns.
- Maintain and troubleshoot Hangfire jobs (50,000+ daily), and optimize SQL Server queries and Stored Procedures via Entity Framework Core and LINQ, cutting API latency by 40%.
- Collaborate cross-functionally to integrate Azure AD and Microsoft Graph API for 1,000+ users.

Full Stack Developer Trainee — CS Infotech

Aug 2023 – Feb 2024

Chandigarh, India

- Co-developed a responsive e-commerce platform using JavaScript, jQuery, HTML, CSS, React.js, and ASP.NET MVC, improving engagement by 25%.
- Debugged and optimized SQL Server queries, views, and Stored Procedures, cutting latency by 40% under peak load.
- Supported REST API integration, unit testing, and Git-based collaboration across Agile/SDLC workflows.

PROJECTS

Enterprise Bulk SMS Engine — *ASP.NET Core, C#, RabbitMQ, Hangfire, SQL Server*. Designed a fault-tolerant dispatch platform processing 10,000+ messages per batch (99.5% delivery success), applying OOP and Design Patterns, with retry handling verified through unit testing.

Smart Hospital Registration Platform — *ASP.NET Core, OpenCVSharp, SQL Server*. Architected a patient intake application with biometric capture, camera integration, and automated thread-safe PDF generation, accelerating front-desk workflows by 60%.

FinTech ERP – Tally Middleware — *ASP.NET Core, SQL Server, XML Integration, Web API*. Built middleware mapping live transactional webhooks to Tally ERP ledgers via REST APIs, eliminating manual entries and reducing reconciliation discrepancies.

Multi-Channel Conversational Bot Platform — *ASP.NET Core, WhatsApp API, MS Teams Bot Framework, Telegram Bot API*. Developed chatbot solutions across WhatsApp, Teams, and Telegram with webhook-based event handling, secure authentication, and real-time message processing.

Cloud VM SaaS Provisioning Platform — *ASP.NET Core, Azure, Docker, SQL Server, REST APIs*. Built a SaaS platform for cloud providers to rent VM infrastructure, exposing REST APIs and Web API endpoints for provisioning, onboarding, and subscription management via microservices.

EDUCATION

Bachelor of Computer Applications (BCA) — Guru Nanak Dev University, Amritsar, India

2020 – 2023

Graduated with Distinction
